Journal of Radioanalytical and Nuclear Chemistry, Articles, Vol. 138, No. 2 (1990) 425–428

Index to Volume 138

No. 1

Preface 3

F. El-Daoushy, R. Garcia-Tenorio (Uppsala, Sweden)
^{210}Pb (^{210}Po) speciation of aquatic deposits: refinement and utility 5

R. Seki, E. Kimura, T. Takahashi, N. Ikeda (Ibaraki, Japan)
Distribution and behavior of long-lived radioiodine in soil 17

K. O. Buesseler, S. A. Casso, M. C. Hartman, H. D. Livingston (Woods Hole, MA, USA)
Determination of fission-products and actinides in the Black Sea following the Chernobyl accident 33

P. Germain, G. Pinte (Cherbourg and Gif Sur Yvette, France)
Neptunium-237 in the marine environment determination in animal and plant species in the English Channel: biological indicators and trophic relationships 49

R. K. Itawi, S. Subramanian, Z. R. Turel (Bombay, India)
Determination of Se, Cd, and Hg in an aquatic environment of Bombay by substoichiometric neutron activation analysis 63

H. S. Dang, V. R. Pullat, D. D. Jeiswal, M. Parameswaran, C. M. Sunta (Bombay, India)
Daily intake of uranium by urban Indian population 67

M. Thein, J. S. Bogard, K. F. Eckerman (Oak Ridge, Tennessee, USA)
Estimation of ^{244}Cm intake by bioassay measurements following a contamination incident 73

K. Bunzl, W. Kracke (Neuherberg, FRG)
Simultaneous determination of ^{238}Pu, $^{239+240}$Pu, ^{241}Pu, ^{241}Am, ^{243}Cm, ^{244}Cm, ^{89}Sr, and ^{90}Sr in vegetation samples, and application to Chernobyl-fallout contaminated grass 83

V. M. Matkar, K. C. Pillai (Bombay, India)
Studies on speciation of transuranics in the environment 93

H. Kawamura, Y. Igarashi, K. Shiraishi (Ibaraki, Japan)
Determination of Th and U in bone ash by ICP-ion source mass spectrometry 103

E. Holm, B. Oregioni, D. Vas, H. Pettersson, J. Rioseco, U. Nilsson (Lund, Sweden and Monaco)
Nickel-63: radiochemical separation and measurement with an ion implanted silicon detector 111

Elsevier Sequois S. A., Lausanne
Akadémiai Kiadó, Budapest

U. C. Mishra (Bombay, India)
Comparison of radionuclides levels from the Chernobyl reactor accident and from global fallout 119

K. Hirose, Y. Sugimura (Ibaraki, Japan)
Plutonium isotopes in the surface air in Japan: effect of Chernobyl accident 127

C. M. Sunta, H. S. Dang, D. D. Jatwai, S. D. Soman (Bombay, India)
Thorium in human blood serum, clot, and urine comparison with ICRP excretion model 139

Y. Takizawa, L. Zhao, M. Yamamoto, T. Abe, K. Ueno (Akita, Japan, Shandong, China and Ishikawa, Japan)
Determination of ^{210}Pb and ^{210}Po in human tissues of Japanese 145

K. Nakamura, Y. Nagaya (Nakaminato Ibaraki, Japan)
Distribution of ^{137}Cs and ^{239,240}Pu in the sediment of the Seto Inland Sea 153

A. Srivastava, H. O. Denschlag, O. Kelber, K. Urich (Mainz and Bonn, FRG)
Accumulation and discharge behavior of Cs-137 by zebra fish (Brachydanio rerio) in different aquatic environments 165

M. García-León (Sevilla, Spain)
Determination and levels of ^{99}Tc in environmental and biological samples 171

R. Hedvall, B. Erlandsson (Lund, Sweden)
^{40}K emission in energy production from straw 181

H. Kategiri, O. Narita, A. Yamato, M. Kinoshita (Ibaraki-Ken, Japan)
Low level measurements of ^{129}I in environmental samples 187

No. 2

T. Hashimoto, Y. Sakai (Niigata, Japan)
Selective determination of extremely low-levels of the thorium series in environmental samples by a new delayed coincidence method 195

R. Bojanowski, D. Knapinska-Skiba (Sopot, Poland)
Determination of low-level ^{90}Sr in environmental materials: a novel approach to the classical method 207

K. G. W. Inn, W. S. Liggett, Jr., H. L. Volchok, M. S. Feiner, J. F. McInroy, D. S. Popplewell, D. R. Percival, R. A. Wessman, V. T. Bowen, H. D. Livingston, R. L. Kathren, H. Kawamura (Gaithersburg, Maryland, USA, New York, New York, USA, Los Alamos, New Mexico, USA, Chilton Didcot, Oxfordshire, UK, Idaho Falls, Idaho, USA, Richmond, California, USA, Woods Hole, Massachusetts, USA, Richland, Washington, USA, Ibaraki, Japan)
Interlaboratory comparison of actinides in human tissue ^{239}Pu and ^{240}Pu 219

G. Ingrao, F. Breuer, G. P. Santaroni (Roma, Italy)
A method for the evaluation of the ^{137}Cs ingestion following the Chernobyl accident 231

P. I. Mitchell, J. A. Sanchez-Cabeza, T. P. Ryan, A. T. McGarry, A. Vidal-Quatras (Dublin, Ireland and Barcelona, Spain)
Preliminary estimates of cumulative caesium and plutonium deposition in the Irish terrestrial environment 241

N. Ikeda (Ibaraki, Japan)
A brief history of the fission products and transuranium elements research in Japan 257

M. Imamura, H. Nagai, M. Honda, K. Kobayashi, K. Yoshida, M. Yoshikawa, T. Kobayashi (Tokyo, Japan)
Measurements of the long-lived radionuclides in environmental samples by accelerator mass spectrometry 261

K. Sankaranarayanan (Leiden, The Netherlands)
Genetic risks to man from exposure to long-lived radionucudes 271

A. S. Paschoa, E. M. Irenberg, N. J. Parker, M. E. Wrenn (Rio de Janeiro, Brazil and Salt Lake City, Utah, USA)
Automatic registration of fission fragment tracks with a spark gap counting system 293

S. Hisamatsu, Y. Takizawa, T. Abe (Akita, Japan)
Fallout ^{241}Am concentration in food and human tissue 303

T. Nakanishi, M. Satoh, M. Takei, A. Ishikawa, M. Murata, M. Dairyoh, S. Higuchi (Kanazawa, Ishikawa-ken, Japan)
Successive determinations of ^{210}Pb, ^{210}Po, ^{226}Ra, ^{228}Ra and selected actinides in seawater and sea sediment 321

N. Hayashi, H. Katagiri, O. Narita, M. Kinoshita (Ibaraki-ken, Japan)
Concentration factors of plutonium and americium for marine products 331

B. Saibu, H. E. Bjørnstaad (Aas-NLH, Norway)
Analytical techniques for determining radionuclides associated with colloids in waters 337

N. P. Singh (Salt Lake City, Utah, USA)
Thorium, uranium and plutonium in human tissues of world-wide general population 347

M. Yamamoto, S. Igarashi, K. Chatani, K. Komura, K. Ueno (Ishikawa and Fukui, Japan)
Determination of ^{237}Np and ^{241}Pu in environmental samples: in soil and sediment 365

Y. Muramatsu, S. Uchida, Y. Ohmomo (Ibaraki, Japan)
Determination of ^{129}I and ^{127}I in soil and tracer experiments on the adsorption of iodine on soil 377

P. W. Krey, M. Heit, H. D. Livingston, K. M. Miller (New York, NY, USA and Woods Hole, MA, USA)
History of plutonium composition of fallout in the Northeastern U.S. from contemporary measurements 385

H. A. Das, R. N. J. Comans (Utrecht and Petten, The Netherlands)
On the limits of low-level measurements of ^{137}Cs as a natural radiotracer 407

D. J. Assinder, J. Hamilton-Taylor, M. Kelly, S. Mudge, K. Bradshaw (Lancaster and Gwynedd, U.K.)
Field and laboratory measurements of the rapid remobilization of plutonium from estuarine sediments 417

Index to Volume 138 425
